For Immediate Release

Toronto, November 30, 2008 – Kelron Logistics Named As Logistics Quarterly Top 50 North American 3PL Provider

Kelron Logistics has been named as one of the Top 50 3PL providers in North America by Logistics Quarterly magazine.

The Top 50 3PL listing is published annually, and designed to serve as a decision support tool for Logistics Quarterly readers to identify and source highly capable and reputable service providers.

Companies are selected by an editorial team based on the submission and evaluation of an extensive survey that explores services, markets and technological capabilities.

“Being selected as a Top 50 North American 3PL provider organization is certainly an honor, and speaks directly to the dedication and commitment of our entire team in working to provide intelligent transportation logistics solutions to our many clients” said Keith Matthews, Vice President and Co-Chairman of Kelron.

About Kelron

Kelron Logistics is a leading provider of intelligent transportation logistics solutions that help companies optimize their supply chain performance and efficiency when moving goods throughout North America.

Kelron offers a full range of services including transportation management, dedicated capacity, on-demand transportation, warehousing/distribution and consulting.
