Toronto, September 30, 2008 - Kelron Logistics Receives TIA "Performance Certification"

Kelron Logistics has been officially recognized by the Transportation Intermediaries Association (TIA) as "TIA Performance Certified".

TIA Performance Certified businesses are among the leaders in the 3PL industry, embracing professional standards for business operations and maintaining guarantees that protect their customers freight.

"This program complements our unique and proprietary Supplier Quality and Compliance (SQC) Program, which is designed to ensure service quality and effective risk management said Geoff Bennett, President and Co-Chairman of Kelron.

Keith Matthews, Vice President and Co-Chairman went on to say that "the TIA Performance Certification will further assist us in providing our clients with the peace of mind they're looking for when dealing with 3PL providers".

About Kelron

Kelron Logistics is a leading provider of intelligent transportation logistics solutions that help companies optimize their supply chain performance and efficiency when moving goods throughout North America.

Kelron offers a full range of services including transportation management, dedicated capacity, on-demand transportation, warehousing/distribution and consulting.
